THE CHARLEROI MAIL

VOLUME XXI—NO. 150 CHARLEROI, WASHINGTON COUNTY, PENNSYLVANIA, TUESDAY, NOVEMBER 30, 1920 TWO CENTS

BEEF AND PORK PRICES WERE HEAVILY SHADED ON MONDAY

Temporary Condition Caused by a Surplus of Stocks on Market.

MAY REACT NEXT WEEK

Wholesale prices for beef and pork were considerably off in the Charleroi market on Monday, when the local branch of the Chicago packing houses were compelled to shade prices in order to work off surplus stocks. The decrease in practically all lines of beef and pork products were down anywhere from 6 to 16 cents per pound, due to the fact that quite a large supply had been accumulated because of Thanksgiving week.

Poultry was much in demand last week, and as a consequence the sale of beef and pork fell off to a considerable extent, but the supply of these latter commodities were not reduced. As a consequence it became necessary for the selling agencies in various parts of the country to dispose of their assignments while it was saleable, and as a result there were many bargains in meat products. Pork products suffered a cut of from 16 to 18 cents a pound, selling anywhere from 8 to 16 cents a pound, according to quality, while beef sold from 6 to 10 cents below normal conditions.

This is but a temporary phase of the situation, according to Manager Mitchell of the local Cudahy agency who says that prices are likely to stiffen before the end of the week, with a tendency on the part of the market to reach a more normal stage some time next week. However, it is the belief of packing house men that prices will not goback to former levels, as the tendency in all lines is downward at the present time.

These conditions ought to be reflected to a greater or less extent in the retail market this week, with a tendency to fluctuate, as the wholesale market gets back to a somewhat higher basis. Packers claim that beef prices, while high, do not cover the actual cost of production, but apparently there is no tendency to increase them. Reports from many cities throughout the country indicate a lowering of prices in beef and pork products, which indicates that the movement is general, and not confined to one particular locality.

ENTERTAINED FRIENDS ON THANKSGIVING DAY.

On Thanksgiving day Mr. and Mrs. Clayton R. Wiley entertained Mr. and Mrs. Earl Bryan and sons Sheldon and Earl, of Hazelwood. Mr. Bryan is chief engineer on the steamer Werren Elsey, owned by the Vesta Coal company. They also had as guests that day, Mr. Charles Rodgers and wife, and sister-in-law, Miss Celia Cornell. They enjoyed a very agreeable time and finished up the day with dancing and music, the guests not leaving until a late hour.

CLUB HOUSE MAY BE OPEN ALL WINTER

The attendance at the dance given at the Monongahela Valley Country club last Friday was so successful, that the board of directors may decide to keep the club house open all winter. A meeting of the directors will be held Wednesday afternoon, at which time some definite action will be taken. This afternoon the regular card party is being held by the ladies, but no dance is scheduled for this week. If the directors decide on keeping the house open it is likely that some function will be arranged for the week of the 6th of December. Monongahela has made some improvements on the Ridge road leading to the club house, and if some arrangement can be made to improve another short stretch from the city line to the club house, it will be a big factor in making the country club a big factor in social affairs this winter.

HILLMAN INTERESTS BUYING MORE COAL

A deal has bten closed in Waynesburg for the sale of 288 acres of coal land and 192 acres of surface located in Franklin township, adjoining the borough of Waynesburg on the west, to the Hillman interests of Pittsburgh. The property sold was owned by the E. M. Sayers estate, and included a 192 acre farm and the coal underlying a tract of 96 acres adjoining. The price for the 192 acres of surface andcoal was $550 per acre or $105,600, while the price of the 96 acres of coal was $300 per acre, or $28,000. The Hillman interests have been buying considerable coal near Waynesburg and it is predicted that mining operations will be started near that town within a few months.

NO IDLING ALLOWED IN STORE ENTRANCES

Store entrances must not be made the place of idlers, according to an official mandate handed down last Friday night by Mayor W. H. Smart, of Uniontown. The Mayor has directed the arrest of persons who persist in violations of this particular nature. Charges of loitering will form the basis for arrest, he has declared. Those idling in store entrances will be directed to stand on the curb, and in the event of refusal arrest will follow.

UNIONTOWN BARBER ADVERTISES LOW PRICES

Possibly anticipating a return to pre-war prices a Uniontown barber is advertising hair cuts at 35 cents and shaves at 15 cents. These were the prices that prevailed prior to the war, and may be indicative of a general downward trend in the way of tonsorial emoluments.

HOGAN GIVEN A VERY SEVERE SENTENCE

Jack Hogan, who is also known by a number of aliases, who was convicted in the Washington county criminal courts before Judge J. A. McIlvaine, last week, of complicity in the robbery of the First National Bank, of Finleyville, on May 24 last, will have to spend the next 25 years behind prison bars.

He was sentenced on Monday to pay the costs, a fine of $1 and to undergo imprisonment in the Western penitentiary for an indeterminate term, the maximum of which shall be 20 years and minimum 18 years. In addition to the serving of this time, the defendant will have to serve out, at the completion of his 18 years' sentence, the balance of a 10 year sentance imposed on him in the criminal court of this county in 1915 He had served three years of this sentence, when he was paroled. His total sentence will be 25 years.

Before being sentenced on Monday he denied having had a hand in the Finleyville bank robbery, said the story told by Verndell on the stand last week was not true, and that he did not know the man "Jew" Davis mentioned in the testimony. Judge McIlvaine, in passing sentence, said it was evident the verdict of the jury was correct, as it was a matter of credibility of witnesses. Hogan was taken to the penitentiary on Monday.

MAKE QUICK TURN TO SAVE WOMAN'S LIFE

Ross Ridgley, the well known automobile dealer of Donora, had a narrow escape from serious injury or death Friday afternoon last, when, while driving his car in Carrick on the way to Pittsburgh a woman suddenly stepped out from behind a street car directly into the path of Mr. Ridgely's car. Other people believing the woman was about to be hit by the machine, turned their heads, but Mr. Ridgley, an experienced driver, with a quick presence of mind, turned his car away from the woman, striking a telegraph pole. He was thrown from the machine by the collision, which badly damaged a front wheel and axle. The woman walked away as though nothing had happened. A policeman nearby commended Mr. Ridgley for his prompt action.

RETURNS HOME FROM FUNERAL OF SISTER

Chief of Police C. W. Albright returned on Monday from attending the funeral of his sister. Miss Margaret Albright, whose death occurred in Cleveland, Ohio, on Thanksgiving day, and where she made her home with a brother. Funeral services were held in Sunday in Lonaconing, Md., where the family formerly resided. Miss Albright was aged 72 years, and before taking ill was preparing to celebrate her birthday anniversary, which occurred on Thursday last, and to which relatives had been invited. Chief Albright was accompanied to Cleveland by Mr. and Mrs. George Albright and daughter Isabelle of Monessen.

SCHOLASTIC HONORS SOMEWHAT MUDDLED

There promises to be a mix-up in the football affairs of the W. P. I. A. L., because of the reported arrangement between Monessen and Rochester High school football teams to play for the championship of the league. Both teams went through the season undefeated, and it is said will meet on Saturday next to decide the championship of the interscholastic circle. The managers of these teams contend that while Washington and Fifth Avenue High school teams are to contend for the Syracuse trophy, having complied with all the requirements according to the trophy committee, this fact does notcarry with it the championship of the organization, which Monessen and Rochester will battle for on Saturday next.

In the meantime Washington and Fifth Avenue teams are preparing for the big amateur classic, which is scheduled to take place at Duquesne University campus in Pittsburgh next Saturday afternoon. A strong corps of officials will be selected to manage the game, which is expected to be one of the best that has been played by scholastic teams in the Pittsburgh district in years.

PREPARING FOR A MISSIONARY PLAY

Substantial progress is being made by members of the Self-Denial class of the Washington Avenue Presbyterian Sunday school, who are preparing a pageant of missions to be given on Wednesday, December 7th. Last evening almost all the performers were present and a good practice was held. The music will be in keeping with the theme and the plot represents all the lands asking for the "vis Christus." Mrs. Vivia Stewart, the teacher, was present last evening and all the performers were given their regular parts. It was announced that the pageant will commence promptly at 8 o'clock and all lovers of the missionary enterprise are promised a treat that evening.

ATTEND PRESBYTERIAN MEETING IN PITTSBURGH

Dr. F. C. Sahlaam, F. L. Knappenberger, Albert Metz and Russel Stahlman represented the Washington Avenue Presbyterian church at a meeting of Presbyterian men held in Carnegie music hall, Monday evening. Several noted speakers were there, who emphasized the importance of "every member" canvass and of mission work.

MILK AND PRODUCTS SUBJECT TO VERY SEVERE INSPECTION

Harrisburgh Sets an Example to Other Cities in the State.

REPORTS ARE MADE MONTHLY

While the citizens of Charleroi continue to pay 18 cents per quart for their milk, the city of Harrisburg is being supplied by dealers for 12 cents a quart, this price being a reduction of 2 cents per quart from a former price which the people of that city paid during the fall.

Moreover all milk and cream, as well as ice cream sold in that city are subject to inspection each month to determine their quality and to ascertain if they are being kept at the standard provided by the board of health. A result of this inspection is also published each month, showing the quality of each article tested.

The Mail is in receipt of a report of the character for the month of October, and it is very illuminating in detail as it shows the inspectors for the board of health are looking after their duties in a careful and painstaking manner, and that the people of the capital city benefit by the manner in which this phase of public service is cared for.

While these inspections have not been able to completely eradicate those elements which should not appear in a chemical analysis, and while certain other elements appear in greater quantities than the standard set by the board of health, yet these reports show the character of ice cream, milk and cream sold by dealers so that it is up to the people of the community to impose their own penalty by giving their trade to those who are careful about keeping up the standards.

Milk standards in Harrisburg require a specific gravity of 1,028-1.34; gas, none; colon, none; bacteria, 500,000; butter fat, 3.25 per cent. Any deviation from these standards are shown in the report which is made for each month, which permits the buying public to ascertain which of the dealers are conducting their business in a manner prescribed by regulations. Harrisburg is the only city in which we have seen such a report published, and it is one so illuminating that all who desire may very readily learn of the character of the milk products they are purchasing.

MAN OF PROMINENCE MAY BE IMPLICATED

The arrest of aprominent Pittsburg merchant is expected as a result of the confession made on Monday by Paul Woods and Sloan Daugherty in connection with a number of whiskey robberies in that city and Allegheny county.

According to detectives, both boys, who were arrested last week in connection with a number of holdups and whiskey robberies, made a number of startling disclosures implicating a Pittsburgh merchant. The young men, according to the detectives, stated they had used the merchant's automobile in their robberies and that he was given a share of the whiskey stolen in the holdups. All of the evidence has been turned over to the Government agents, who have started an investigation, and arrests are expected in a few days.

WOMEN VOTERS RATED SAME AS THE MEN

Assessors in Center county, this state, at work on the 1921 occupation tax assessment have instructions from the county commissioners to assess the women of voting age the same as men, according to their occupations. Under these instruction servants are rated at $26, housekeepers $25, nurses at $50, stenographers at $75 and milliners at $200, which is at $25, nurses at $50, stenographers at the highest rating. School teachers are rated at $75. In Charleroi the assessment of women is placed on the $100 basis, housekeepers, bookkeepers and others being rated at that. During the coming year all women will be assessed and will be required to pay the same taxes as men.

BROWNSVILLE MAN ROBBED IN PITTSBURGH

Valentine Walshak, aged 49, of Brownsville, reported to the Pittsburgh police at South Thirteenth street last night that he had been knocked down and robbed of $80 and a gold watch, the robbery taking place at 11:30 o'clock. The robbery according to Walshak, occurred near the Point bridge, West Carson street. In addition to his losses, Walshak suffered a severe contussion on the left side of the face, where the thugs struck him.

SUDDEN DEATH OF LOCK SUPERINTENDENT

Samuel Hughes Sharpnack, aged 68 lockmaster of Lock No. 3, Monongahela river, for several years, died suddenly on Monday at his home near Elizabeth. Death was due to acute indigestion. Mr. Sharpnack was born in Rices Landing, and was well known to practically every riverman and river official engaged in Monongahela river operations. His widow, five sons, and three daughters survive.

PROTECTION FOR FRUIT TREES.

Rabbits and field rats are a menace to young fruit trees and need to be guarded against. They gnaw the tended green bark an inch or two above the ground and frequently girdle the whole trunk in this way, which stops the running of the sap and kills the tree. Bridge grafting saves some girdled trees, but it is a laborious and expensive job, and in very many cases even a tree thus doctored does not resume its original vigor and lives only a year or two. Last spring large numbers of orchardists and farmers found many of their young fruit trees girdled, and this fall some of these have offered a bounty of ten cents for every rabbit shot on their premises. Orchardists are now being advised to take all precautions, before real winter sets in, with a view to protect their young trees.

The first precaution advised is to clear away all leaves, weeds and grass from the base of fruit trees, so that field rats hunting for winter nests will not be attracted. It is well also, before the soil freezes, to mound it up about the base of the trees. This will secure protection from rats and mice, but the danger from rabbits will remain. Among the protections against the latter are wire screens pushed well into the soil and wrapped around the trunk to a height of about twenty inches. The purpose is also said to be served by wrapping the trunk with common building paper held in position by string that has been tarred in order to prevent gnawing. Veneer wood protectors are also used. All such protectors should be removed ear in the spring, being needed only while snow or hard winter conditions limit the food supply of rats and rabbits.

WONDERFUL CROPS.

Agricultural production in general is gratifying, but certain crops are truly wonderful. The yields this year of corn, rice, sweet potatoes. toacco and pears surpass in size those of any previous year in the country's history, and white potatoes. oats, barley, rye and apples closely aproach the previous highest records. Corn, of which this country produces 75 per cent of the world's yield, reached the vast total of 3,199,126 000 bushels above the highest previous record, three billion bushels having been exceeded only in 1912 and in 1917. Iowa produced the largest corn crop. Illinois ranks second, Nebraska third and then follow, in the order of their production, Missouri. Indiana. Texas, Ohio. Kansas, Minnesota. South Dakota, and Kentucky. But, owing to a decline in the price the money value of this mighty corn crop will not equal that of several earlier ones.

The yield of tobacco is 87.000.000 pounds greater than last year's record breaking crop, Virginia and the Carolinas all exceeding their last year's production. Rice exceeds by 12,000,000 bushels the previous largest crop of 1917, nearly half of the yield being grown in Louisiana. Alabama was the leading producer of the bumper sweet potato crop. California was first and New York second in the production of pears, the fifth and last of the record breaking crops. As the six other crops that nearly equal the record include apples, the present high retail price of that indispensible fruit ought to decline enough to gratify the thousands who hold that "an apple a day keeps the doctor away."

NOT UNDERSTOOD.

Freedom is a matter which is not rightly understood by Central Europeans. They have it confounded with licenses to a great extent, and those who émigrate to America are greatly in need of instruction as to the true meaning of freedom as understood by Americans.

We misinterpret oppressions in the same way. Never having known oppression, Americans think that to be oppressed a man must be bashed on the head and thrown in jail. We cannot understand it when we discover that a European's idea of oppression is the inability to get a high school and college education in some particular language. In the same way, many Europeans think that freedom means license to do anything at all, to shoot songbirds, to take fruit from the nearest fruit tree or hit an enemy over the head with a stocking filled with iron fillings. Americanization campaigns are for the purpose of giving aliens a proper viewpoint of what the freedom of America means, and what obligations they are under to the state and to their fellow man. Until such time as this lesson has had an opportunity to sink deeply into the lives of those born across the seas, we may expect that infractions of the law and usuration of privileges will occur wherever aliens in any considerable number congregate together.

READJUSTMENT.

The curtailment of the activity in industries is proceeding in an orderly manner and the number of concerns on reduced time schedules is increasing, with some closing down entirely. Accompanying delines in prices, certain wage reductions are reported—some of them voluntary on the part of the workers. In fact, a hosiery concern in New England employing 3,500 men is said to have closed down notwithstanding an offer of the employes to accept a 15 per cent reduction if this would insure a continuation of steady employment.

Other features will likely accompany this readjustment, but manufacturers generally are optimistic over the future. They do not expect this reaction to extend over many months, and that the coming spring will show the business of the country back on a stronger and more stable basis than for a number of years past. They are confident of certain changes by the incoming administration that will save our American industries from the blight of the cheap labor and cheap materials of the old world.

The Baltimore Sun wants to know what men do with the "fortunes" they save by drinking water. In theory they were to spend the saved money on their wives and children, but between theory and practical application there is often a chasm that fails to be bridged

The news that a monarchy has again been proclaimed in China may be premature, but when it was announced recently that the Chinese republic was nine years old no few observers reflected that it was some years older than they expected it to be.

Released at the end of their terms in Fort Leavenworth prison. Von Scack and Von Bopp are returning to Germany, thereto find that the "von" no longer counts for much even when hitched to the names of bone-headed agents of the Fatherland who struck a snag in America.

The affrighting reports from Bolshevist-ridden Petrograd promises that when winter grips that hapless city it will recall the old Norsemen's description of Hell—"a place deadly cold, full of bloody eagles and pale adders."

The Western Union Telegraph company is having a minature war with the United States government. The officials of thatcompany should go slow. as PresidentWilson still retains all thewar power voted by Congress in 1917.

The price of flour is said to have dropped quite lively during the past few weeks. but no one hereabouts has heard anything about a drop in he price of bread.

CHAMPS WIN TWO GAMES FROM PACKERS

The Champs under leadership of Capt. Billy Kuhn, lived up to their name last night at the Elks' bowling alleys when they took over the Packers led by Bert Mitchell. The Packers took the first game by a close score, leading the Champs by 12 pins, but Capt. Kuhn came right back and took the other two contests, winning the second by seven pins and the third by twenty. Capt. Kuhn had high score for the evening, rolling 170. Tonight the Hoop Poles and the Oilers play. Score:

CHRISTMAS SEALS

The Tuberculosis Christmas Seal as known in America, was first sold in 1908

The Seal is a little sticker placed on letters and packages during the month before Christmas and over the holidays.

Christmas Seals cannot be used as postage.

Seals sell for one cent each.

More than three-fourths of the money raised by your tuberculosis committee from Seals and Health Bonds remains to fight tuberculosis and improve the health of your community

The sale of Tuberculosis Christmas Seals and Health Bonds begins November 29.

SANTA CLAUS AND THE CHILDREN'S SEAL

Bright Little Sticker For Mail Means Much to the Boys and Girls.

Santa Claus and a child appear on the Christmas Seal this year.

Santa is bringing health for children. The child pictured is so happy he is getting the great gift of health that he has perched himself on Santa's shoulders and is holding aloft the double barred cross, which is the emblem of hope used by tuberculosis workers.

The mission of the little sticker is just what the picture on it this year signifies. The salutation of the child and Santa—"Happy New Year"—is borne out through the work done with the money realized from the sale of Tuberculosis Christmas Seals

"The Tuberculosis committee covering a community retains over three-fourths of the money it realizes from the Seal sale for carrying on the fight against tuberculosis and the improvement of the public health," said Gifford Pinchot, chairman of the Seals Seal Committee. "One of the important things being done by these committees is the health work among children, and especially in the schools.

"If we teach children better habits and hygiene they will grow up much healthier and tuberculosis will be materially lessened.

"Every Christmas Seal used means better health for children of your community."

HOW SEAL FUNDS ARE BEING USED

Christmas Seals and Health Bonds furnish most of the funds for the Pennsylvania Tuberculosis Society and 100 local affiliated organizations. They employ fifty nurses health educators and other workers

These workers assist the sick and disseminate facts on the nature. treatment and prevention of tuberculosis. Specifically they

Put the Modern Health Crusade in the schools

Make health surveys for discovering cases of tuberculosis

Show health motion picture films.

Make health demonstrations at fairs and on other occasions, using "Health Clown" "Picture Man" and "Fairy."

Secure publicity in newspapers.

Distribute literature and display posters.

Arrange "Health Days," "Fly Campaigns" "Clean-up Weeks," "Health Plays"

Provide speakers on health topics for clubs, teachers' institutes, granges, medical societies, etc.

Show tuberculosis exhibits

Promote open-air and open window schools.

Assist with medical examination of school children and in follow-up care

Join with other agencies in maintenance of health centers, baby clinics and child welfare stations.

Provide relief where necessary.

Help to secure hospital provision for advanced cases of tuberculosis.

Make it possible for those having tuberculosis to go to sanatoria.

The arts of printing and writing were introduced into Japan from China in the year 284. In 673 the Emperor Temmu directed the publication of the first Japanese books, "Kojiki," or Ancient Legends

They Guessed It.

When the band played "How Dry I Am" at the league ball park at Portland Ore. three Japanese fans stood in their box with hats raised, thinking it the national anthem.

The Age of Death.

One quarter of the people on the earth die before the age of six, one half before the age of sixteen and only about one person of each 100 born lives to the age of sixty-five.

Hotel for Dogs and Cats.

A hotel for dogs and cats was opened a short time ago in London to care for the pets of persons leaving the city temporarily.

NEURALGIA

The Afflicted Nerves Respond to the following Simple Treatment

Give the forehead and temples two or three applications with a cloth dipped in water as hot as you can bear. Bathe them and dry thoroughly. This will open the pores of the skin and induce the blood to circulate freely.

Next, apply Krew-Pina and rub well in about the temples and above the eyes. Also, put a little up into the nostrils, so the medicinal vapors the heat of the body causes Krew-Pina to give off can be inhaled. Repeat these applications at intervals until relieved.

Its effectiveness in killing headaches is only one of the many ways in which the virtues of Krew-Pina are cutting down doctor's bills and preventing serious illnesses in thousands of households. Compounded from a scientific formula entirely of simple home remedies such as Oil of Pine and other volatile oils. Unequalled for the relief of inflammations of all kinds and for healing properties in cases of cold, sore throat, feet or joints, croup, lame back, burns, bruises, cuts, etc. 50c and 60c jars—at your druggist's.

Free Sample of Krew-Pina
WILL BE SENT TO ANY ADDRESS ON REQUEST.
THE KREW-PINA CO., INC.
WAYNESBURG, PA.

SLOAN'S GOES RIGHT TO THE ACHING SPOT

You can just tell by its clean, stimulating odor, that it is going to do you good

THOUSANDS of men and women when the least little touch of "crick" assails them, let Sloan's Liniment *kindly* to knock it out. Popular over a third of a century ago—but more popular today.

That's because it is so wonderful—helpful in relieving external aches and pains—sciatica, lumbago, backache, neuralgia, overstrained muscles, stiff joints, weather exposure results. A little is all that is necessary, for *it soon penetrates without rubbing*, to the sore spot. No mess, no stained skin.

All druggists—35c, 70c, $1.40.

Sloan's Liniment Kills Pain

FOR SALE.

Smart New Millinery for Early Winter

Holiday Coming--a Need for a New Hat or Two--
Berryman's Millinery Reduced One Third, Creates a Happy Situation

Just at a holiday time, there are more uses for the income than at any other time. A Millinery reduction coming now is very gratifying, for even if gifts must be bought one's own appearance can not be allowed to become shabby.

The ONE-THIRD discount applies to all dress, street, sport and other hats, excepting the $5 hats. There are felts, velvets and duvetynes in the prevailing shapes.

Interesting as a touch of aPris are the veils at $1.25 and $4.00 each.

MONESSEN WILL NOT PLAY FOR TROPHY

The Monessen High school football team has been eliminated from the contest for the Syracuse trophy cup by a series of elimination, which leaves only the Washington High and Fifth Avenue High to battle for this special honor.

This decision was arrived at on Saturday last of the Football Trophy Committee held in Pittsburg, and because it had not played the required number of games with members sets forth that Monessen is eliminated of the Interscholastic League. Rochester was thrown out because it did not become a member of the League until November 19, although it had played the required number of games with league teams.

By this method of deduction the trophy committee eliminated the contenders to two teams, which will likely play off the contest on neutral grounds on Saturday next. The Washington team was held to a scoreless tie by the Charleroi team during the past season.

ORDER SPECIFIES HEAT IN COACHES

Anticipating shivers that are beginning to creep up and down the spines of winter commuters will in no way be alleviated by the announcement of the Pennsylvania Railroad concerning heat for suburban trains. According to the latest instructions to employes from the office of the superintendent of transportation, coaches in suburban service will worry through the winter with a temperature varying between 60 and 70 degrees.

Through passengers, besides getting the full advantage of recently boosted fares, will get an extra five degrees of heat, if instructions calling for 65 to 70 degrees are carried out. Pullman traveling will be more expensive, but not any warmer, as per "for the information of the public."

A cautious addenda to the statement issued gives the frigid admonition that "temperature should be kept below rather than above the highest figures given."

Rheumatism Relief—2

Nature's Remedy (NR Tablets) Helping Thousands Who Try Painless Things Stubborn Ills Are Corrected.

There are three vital processes human existence,—the digestion food, the extraction of nourishment from it and the elimination of waste.

Poor digestion and assimilation means failure to derive full nourishment from food and that in turn means impoverished blood, weakness, anemia, etc. Poor elimination means an accumulation of waste matter which poisons the body, lowers vitality, decreases the power of resistance to disease and leads to the development of many serious ills.

Rheumatism,—due to some interference with the process of elimination, failure to get rid of certain poisons,—cannot be expected to yield to any medicine that fails to correct the condition responsible for it. Can any reasonable person expect to relieve himself of rheumatic pain as long as rheumatic poison is allowed to remain in the body.

Think of this. It explains the success of Nature's Remedy (NR Tablets) in so many cases where other medicines have failed. Thousands are using NR Tablets every day and are getting relief. Why pay five or ten times as much for uncertain things? A 25c box of Nature's Remedy (NR Tablets), containing enough to last twenty-five days,—must help you or must give you prompt relief and entire satisfactory benefit or cost you nothing.

Nature's Remedy is not only for the relief of rheumatism. It also improves digestion, tones the liver, regulates kidney and bowel action, purifies the blood and cleanses the entire system. You've tried the expensive medicines and doctors, now make this one real test. You'll get results this time. Just try it. Nature's Remedy (NR Tablets) is sold, guaranteed and recommended by your druggist.

PIPER'S PHARMACY. CHARLEROI.

WHITE TEETH HELD FIRM IN HEALTHY GUMS

Pyorrhea, an infection and destruction of the gum tissue holding the teeth firm in their sockets, may be prevented by killing the infection before any damage has been caused.

GO NO FARTHER

The Evidence is at Your Door.

Charleroi proof is what you want and the statement of this highly respected resident will banish all doubt: Mrs. Geo. Arnold, 821 McKean Ave., Charleroi, says: "The first symptom of kidney trouble I had was a dull, heavy aches across my back. I had a run down, tired-out feeling that made me feel of no account. Every time I bent over it almost took my breath away to straighten up again, and then I would become dizzy and black specks would appear before my eyes. My kidneys acted irregularly which caused me a lot of annoyance, too. I was told to try Doan's Kidney Pills so I got a supply and after taking a few doses my back felt strong again. I continued the use of Doan's until I was cured of my trouble."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Arnold had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

SPECIAL HONOR FOR LOCAL PITT STUDENT

H. Russell Sahlman of the University of Pittsburg, has been elected to Delta Sigma Rho, the national forensic society. Membership in this society is based upon debating and oratory work throughout the school year. The local student was elected upon the merits of his forensic work at the above institution, having participated in two inter-collegiate debates during the past year against Westminister College and West Virginia University and having won first place in the Fourth Annual Oratorical Contest of the University of Pittsburg.

Delta Sigma Rho has 57 chapters at the same number of universities and colleges, namely Mount Holyoke and Vassar, and its chapters are limited to only the larger institutions of higher learning. Its membership numbers 2700 and at no one time are the more than ten members at any one college or university. The chapter at the University of Pittsburg is the society's most recent one, having been installed there on Saturday, November 20th, 1920.

QUITS OIL AS FUEL; GOES BACK TO COAL

During recent weeks large numbers of open top cars of the Canadian Pacific Railroad company have been taken to the various mines in the Monongahela valley district for loading and shipping to northern points. The presence of these cars in the valley may be accounted for by the fact that the Canadian Pacific Railroad company is changing its equipment, including steamships, from oil burners to coal burners. This step was taken because of the acute shortage of oil, as it was impossible for the Standard Oil and the Union Oil companies to furnish the railroad company with the 70,000 barrels of oil daily as required by their needs. It will cost about $12,000 to change a locomotive from an oil burning to a coal burning machine, and it will require about $60,000 to make the necessary changes on each steamship.

RAILROAD PAYROLL AT NEWELL STOLEN

No clue has been found by P.& L.E. railroad detectives at Newell to lead to the identity of the person or persons, who on Friday night last, about 7 o'clock, entered the office of yardmaster Thomas Copeland and get away with the employes' payroll, or approximately $3,500.

It is the custom of the company to send the payroll to Newell from the main offices in Pittsburg, in check form, and the employes go to the yardmaster's office and sign for their checks. At the time of the robbery Friday evening, several of the employees of the office were around, but no one seems to have noticed the payroll disappear. Several employes of the company had called at the office earlier in the evening and signed for their checks, and the book in which they had signed their names was also taken along with the cehcks.

It is said that the payroll, being in check form, would be easily converted into money, as the forms of checks used are easily made transferable.

SHIP BY TRUCK PLAN FOR THIS DISTRICT

W. B. Higgs, a representative of the Rainbow Lines, "ship by truck system," proposing to establish a line of trucks and a terminal at Monessen, appeared before the Board of Trade of that city on Friday night of last week. The Rainbow Lines is an organization of traffic and transportation experts which the commercial interests of Pittsburgh have been successful in bringing to that city from Louisville, Ky., instead of having it go to several western cities which were asking for it.

If the system is established in this district it will mean a daily delivery service within a radius of 70 miles of Pittsburgh, at railroad rates plus the terminal delivery charges. All merchandise is insured in transit, eliminating costly delays, lost shipments and claims for damages. It is understood the Kentucky lines were placed on a sound operating basis within three and one-half months from the time the company was organized in that territory.

It may be true that the profiteers will not get what is coming to them, but they have already got what is coming to us.

WOMAN CHOSEN AS A POOR DIRECTOR

At a meeting of the Washington county poor directors, held in Washington on Monday, Mrs. Lillie McCalmont Lane, widow of the late William E. Lane, was chosen to fill the vacancy on the board caused by the death of her husband, to serve until January, 1922. Mrs. Lane will be the first woman chosen to the position of poor director in the state, and will assume her duties immediately. Her successor will be chosen at the general election in November, 1921. Mrs. Lane was not a candidate for the place, but her name was suggested by quite a number of people and the board believeing it good policy, elected her to the vacancy. It was felt by many that the poor directorship offered a wide field of service for an efficient woman, because of the number of women and children under the care of the board.

LONG DEVOTED TO POTTERY

Chinese Town Has Been the Center of the Industry for Seventeen Hundred Years.

Seventeen hundred years ago the Chinese potters began work in Kingtecheng, for the town, now one of the largest towns in the country, dates from the Han dynasty, when, according to the records, porcelain was first made in China, although vessels of earthenware probably were produced some centuries earlier. A large and picturesque town of potters it still is, to judge by Frank B. Lenz's description in Millard's Review, and modernly interesting because its product, hitherto largely confined to China, will no doubt enter more and more into world trade with the present development of international commerce.

They call it a "town" in China because, although some 200,000 people live in it, it has no wall; practically it is a great manufacturing city, where warehouses, shops, furnaces and the homes of the people are all jumbled together, as they have come into being during the centuries, and where, century by century, the great mounds of chipped and defective pottery have grown steadily higher along the banks of the river.

Nowadays there are at least 200 firms engaged in the occupation, 720 pottery kilns, 1,500 art shops, and more than 2,000 form factories; and of the 300,000 inhabitants, about 200,000 live by the manufacture and sale of porcelain and pottery.

FAMOUS HOUSE STILL STANDS

Mansion Erected by Thomas Hancock on Beacon Hill, Boston, Splendid Piece of Architecture.

The first house of distinction to be built on Beacon hill, in Boston, the highest of three elevations which gave to the city the name of "Tri-mountain," and which was the center of military, social and religious life, was erected by Thomas Hancock, an uncle of the Revolutionary hero. This was in 1737.

It was a beautiful mansion, built of stone, with the ground laid out in orchards and gardens, and it was here that the first tree nursery in Boston was started. Inside great taste was shown in the furnishings, the drawing-room containing a rare set of bird's-eye maple, covered with red damask.

Hancock was a lavish host, and gave a famous breakfast to the officers of the French fleet.

While the French troops were in Boston forty or more of the officers dined at the house every day. On one occasion, however, so many unexpected guests appeared that Madam Hancock was driven to despair to know how to provide for them, so she had servants milk all the cows pastured on the common whether this was agreeable to their owners or not. The house is yet considered a splendid piece of architecture.

An Officer and a Gentleman.

Having failed twice to pass the mental tests for entrance to the naval academy, a youth who was permitted to take the examination a third time, procured another youth who had already passed, to undergo the examination in June. The substitute was discovered and the appointments of both canceled. The names of the offenders were not made public.

The first candidate failed in both the February and April examinations, and in June persuaded a candidate who had passed in April to take the examination under the former's name before the civil service board in Baltimore. The papers fell into the hands of examiners at the naval academy, who had gone over the papers which the second candidate had submitted for himself. A careful comparison indicated that they had been written by the same person, and both youths confessed.—Annapolis correspondent New York Sun.

Misunderstood.

A New York lawyer whose zeal probably outweighed his learning was arguing a case in a local court, which for present purposes need not be identified.

"My contention, your honors," he said in accents that betrayed his race, "iss dat de lower court madt error because de verdict iss against de veight of de evidence."

"We can't hear that," said the court, meaning that it was not a proper assignment of error.

"Vell, now," said the lawyer, who entirely missed the point, "if your honors vill lissen I vill speak a liddle londer."

The honor of the presidency came to William Henry Harrison later in life than to any other incumbent of office. Mr. Harrison being sixty-eight years of age when inaugurated in 1841. When Theodore Roosevelt succeeded President McKinley in 1901, he was but forty-two years of age, being younger than any other president of the United States at the time of attaining the office.

A Slow Voyage to the Sea.

A block of wood was cast into the Yellowstone river 11 years ago by a citizen of Glendive, Mont. It is slowly drifting to the sea. The inscription made upon it by the man who started it has been added to by two other persons, who picked it up and started it again on its way. It was last seen at Williston, N. D.

Shorty drops in on New York!

HERE WE ARE, PETE! New York Wednesday night

Camped once more in the plumb centre of our old stamping grounds—rubbing elbows with the roaring racket and running flush into more electric displays, blazing posters and smashing signs that sound the joys of Camel Cigarettes than you'd ever believe could be jammed into one town!

When I hit Broadway this p. m. I'd said the Reynolds folks had transplanted "Camel City" right up here!

It seems like all New Yorkers have adopted Camels as their own personal brand! And, Pete, since this is the original speed town it's only what you expect when you see 'em carry a package of Camels in each coat pocket. If their right hand is busy, they dig out their left hand deck—*they just won't lose time* getting a Camel lighted! That's the gait around here, old thorobred!

And, Peter, the New Yorker has his own A-1 pet reason why he's so keen for Camels. For instance, Doc Marshall will bet his car on Camels quality against any cigarette in the world! Bill James says to me—"Shorty, there never was mild, mellow body like Camels." And, as for Dan Boggs—he spills it that Camels are the only cigarette free from any unpleasant cigaretty aftertaste or cigaretty odor! And, he knows! Frank Frazer will tell you it's Camels wonderful Turkish and Domestic blend! And *all* of them are right!

And, Pete, old proof-of-the-pudding—you tell 'em that Missouri hasn't anything on little old New York when it comes to that "show me" stuff, on cigarettes or anything else!

Sincerely

Shorty.

Camel CIGARETTES
